01. [COMPANY NAME]

TIER 1 | Score: 95/110

COMPANY OVERVIEW

Fractional CMO agency serving 100+ B2B SaaS companies at 15K-45K/month.

WHY CONTACT NOW

CEO publicly stated SDR is the hardest position to hire while posting a new SDR role in April 2026.

THEIR SPECIFIC PROBLEM

Hiring SDRs to generate consistent new client meetings at 15K+ monthly price point; role has been open for months.

HOW YOUR PRODUCT SOLVES IT

Replaces SDR hiring - delivers researched companies and personalized outreach drafts generating qualified meetings in weeks.

RECOMMENDED STRATEGY

Strategy:	Relevant Observation (Josh Braun Method)
Channel:	LinkedIn DM
Signal:	Multiple SDR/BDR postings April 2026 + CEO public statement about difficulty hiring.
Confidence:	VERY HIGH

RANKED HYPOTHESES

1. [65%]	Open to alternative models that generate meetings faster than hiring <i>CEO publicly stated the pain.</i>
2. [25%]	Committed to internal SDR team, views hiring challenges as temporary <i>Service business culture prefers internal teams.</i>
3. [10%]	Sees SDR challenge as opportunity to productize for their clients <i>Portfolio expansion angle exists.</i>

EMAIL DRAFT [TIER 1 - ULTRA-PERSONALIZED]

Subject: Saw your SDR hiring post - a question about [COMPANY NAME] pipeline

BODY:

Hi [PROSPECT NAME], I saw [COMPANY NAME] posted a Head of SDR role and your note that SDR is the hardest position to hire for. When agencies at your price point rely on traditional SDR hiring, the 90-day ramp creates pipeline gaps that impact new client acquisition. We have helped similar fractional firms generate qualified meetings without hiring SDRs - worth sharing how?

LINKEDIN MESSAGE [TIER 1 - ULTRA-PERSONALIZED]

Connection Note: Saw your post on SDR hiring challenges - exactly the gap we help B2B agencies solve.

FOLLOW-UP MESSAGE:

Hi [PROSPECT NAME], your point about SDR being the hardest role to hire for is the exact pain we built around. Traditional SDR hiring creates a 90-day pipeline gap at your price point. We help agencies skip that entirely. Would a case study be useful?

CALL SCRIPT [TIER 1 - ULTRA-PERSONALIZED]

Opener (8 sec): Hi [PROSPECT NAME], can I get 30 seconds? Saw [COMPANY NAME] posted SDR role and your comment about it being the hardest hire.

Gatekeeper: Looking for [PROSPECT NAME] about the SDR initiative [COMPANY NAME] posted in April.

Closing script: Worth a 15 min walkthrough? Tuesday 2pm or Wednesday 11am?

02. [COMPANY NAME]

TIER 1 | Score: 92/110

COMPANY OVERVIEW

North America's largest fractional CMO firm with 125+ executives serving 1550+ clients at \$125M annual revenue.

WHY CONTACT NOW

Acquired Jauntboards AI sales intelligence March 2025; now adding 2-3 CMOs per month with underutilization risk.

THEIR SPECIFIC PROBLEM

Jauntboards solves who to target but not why now or what message books the meeting. Each underutilized exec costs \$10K-\$30K/month.

HOW YOUR PRODUCT SOLVES IT

Fills gap between Jauntboards intelligence and booked meetings - deep research on why companies need a fractional CMO right now plus personalized outreach.

RECOMMENDED STRATEGY

Strategy:	Hypothesis Framework (C-Suite)
Channel:	Cold Email + LinkedIn Parallel
Signal:	Jauntboards acquisition March 2025 + hiring 2-3 fractional CMOs per month Jan-April 2026.
Confidence:	HIGH

RANKED HYPOTHESES

1. [65%]	Jauntboards solved targeting but created new bottleneck - has targets... <i>Acquisition is recent; integration pain is predictable.</i>
2. [25%]	Internal BDR team overwhelmed by volume of targets Jauntboards surfaces <i>Rapid CMO hiring outpaces internal outreach capacity.</i>
3. [10%]	Post-acquisition integration still in progress <i>Acquisition was 14 months ago, likely past chaos phase.</i>

EMAIL DRAFT [TIER 1 EXECUTIVE - HYPOTHESIS ANCHORED]

Subject: Hypothesis on [COMPANY NAME] intelligence integration

BODY:

[PROSPECT NAME], I read your March post about building the next generation of fractional CMO talent. My hypothesis: the intelligence platform solves who to target but the research gap between intelligence and booked meetings is where pipeline conversion lives. With 20% underutilization across 125 execs that is \$3M-\$9M annual revenue risk. Worth sharing how a similar firm closed that gap in 90 days?

LINKEDIN MESSAGE [TIER 1 EXECUTIVE]

Connection Note: Saw your post on scaling fractional CMO talent - wanted to connect on sales intelligence strategy.

FOLLOW-UP MESSAGE:

[PROSPECT NAME], your March post about building the next generation of fractional CMO talent resonated. Intelligence platforms identify great targets, but the step between identification and booked meetings is where deals get lost. With 2-3 CMOs added per month, each underutilized exec is \$10K-\$30K in lost retainer. Worth sharing a case study on how a fractional CFO firm filled 18 executive calendars in one quarter?

CALL SCRIPT [TIER 1 EXECUTIVE]

Opener (8 sec): Hi [PROSPECT NAME], I saw [COMPANY NAME] made a smart move on sales intelligence. I have been thinking about the gap between identifying a target and getting them to book a call with one of your 125 CMOs.

Gatekeeper: Looking for [PROSPECT NAME] about optimizing the sales intelligence integration and CMO calendar utilization.

Closing script: Worth showing you how a fractional CFO firm went from 18% to 91% exec utilization in one quarter. Tuesday 2pm or Wednesday 11am?
